Affiliated to Dr. Y.S.R. University of Health Sciences, A.P. Vijayawada.

4.3.6 e-content resources used by teacher

URL: <http://115.241.194.8/elearn/>

The Institute follows ICT-enabled teaching in addition to traditional classroom education, implementing various efforts to create an e-learning atmosphere in the classroom. Here are some highlights of these initiatives:

- 1. Narayana Medical Campus Powered by Moodle:**
 - The campus utilizes Moodle, an online learning management system, to enhance the educational experience. Moodle is designed to help educators create high-quality online courses and extend the classroom onto the web. It supports direct teaching with a series of flexible online tools and provides a platform for uploading course resources. As an open-source program, Moodle is completely free for students and teachers, and it can be accessed from anywhere in the world with an internet connection.
- 2. IT-Enabled Learning Tools:**
 - Faculty members employ various IT-enabled learning tools such as PowerPoint presentations, video clippings, audio systems, and online resources. These tools expose students to advanced knowledge and practical learning, making the learning process more engaging and effective.
- 3. Fully Furnished Classrooms:**
 - Classrooms are equipped with LCD projectors and computers, providing a modern and interactive learning environment.
- 4. Interactive Teaching Methods:**
 - Faculty members use interactive methods to enhance teaching. Emphasis is placed on classroom interaction through activities such as research paper presentations, seminars, debates, group discussions, assignments, quizzes/tests/viva, and laboratory work. These methods foster active participation and deeper understanding of the subjects.
- 5. WiFi-Enabled Digital Library:**
 - The digital library is WiFi-enabled, offering students and teachers access to a wealth of content in a structured manner. This resource-rich environment supports both teaching and learning by providing easy access to a wide range of educational materials.

By integrating these ICT-enabled tools and methods, the Institute ensures a dynamic and effective teaching and learning process, combining the strengths of traditional education with the advantages of modern technology.
